

MUHAMMAD SAQIB RAO FOODSTUFF TRADING LLC

About Us

Muhammad Saqib Rao Foodstuff Trading LLC is a branded company Head Office based in Dubai. MSR is company engaged in the domain of Livestock Feed Products including Wheat Bran, Barley, Soybean meal, Corn gluten Meal, Fish Meal, Chicken Meat Meal, Chicken and Bone Meal Alfalfa, Timoth Hay, Rhode Grass ec. Our Exported products are in high demand worldwide due to rich in nutritions and Quality.

Our Goal is to meet customer needs, demands and exceed their expectation with high premium quality products. We are determined to provide innovative solutions to our clients, to the ever changing needs and challenges of our current industry worldwide. With over 15 years of experience in the agricultural sector, our team of professionals are always there to assist you on time, with whatsoever inquiry you request. We are always there to receive your order requirements from our numerous product list of supply.

Our Offices

- UAE (Head Office)
- PAKISTAN
- INDIA
- CANADA

Our Products

Wheat Bran
Soybean Meal
Barley
Fish Meal
Corn Gluten Meal
Chicken Meat Meal
Chicken & Bone Meal

Wheat Bran

Wheat bran is the outer hull of the wheat kernel, which is typically removed during processing. **Wheat bran** is rich in fiber, Proteins, Vitamins and other non-calorie nutrients.

Nutrient	Wheat Bran
Fat Oil	3.46%
Ash	5.35%
C.Fiber	10.94%
C.Protein	14.48%
Carbohydrates	55.05%
Moisture	10.31
Gross energy	4318.56kcal/kg
Metabolize Energy	2738kcal/kg

MOQ	18MT/20'FCL
Packing	34kg PP Woven Bag
Payment terms	TT/LC
Shipment terms	FOB/CNF

Wheat Bran
14.5% Protein

Barley

When properly processed, mixed and fed, barley is an excellent feed grain. It can be used in growing and finishing diets for feedlot cattle, as supplement in forage rations for replacement heifers, and as an energy and protein source for gestating and lactating beef cows.

Nutrient	Hulled barley
Energy (Calories)	354
Protein (g)	12.5
Fat (g)	2.3
Carbohydrate (g)	73.5
Fiber (g)	17.3
Calcium (milligrams [mg])	33
Iron (mg)	3.6
Magnesium (mg)	133
Phosphorus (mg)	264
Potassium (mg)	452
Sodium (mg)	12
Manganese (mg)	1.9
Selenium (micrograms [mcg])	37.7
Folate (mcg)	19

Barley

Soybean Meal

Soybean meal is the most important protein source used to feed poultry and livestock/ruminant animals.(Cattle, horse, pig, fish, sheep). Soybean Meal is the standard to which other protein sources are compared, and is a by-product of soybean oil extraction. Protein, fiber, and fat levels all vary with the process by which the oil is extracted. Soybean Meal is a highly palatable source of protein, and used often as the dominant source of protein in the rations of most farm animals, including ruminants, pigs, poultry, and aquaculture.

Nutrient	Soybean	MOQ	20Ton
Protein	46-48%min	Packing	25kg PP Woven Bag
Moisture	10%max	Payment terms	TT/LC
Fibre	4%max	Shipment terms	FOB/CNF
Fat	1.3%min		
Acidity	in ph		
NDF	8.90%		
ADF	5.40%		
Metabolize Energy (Poultry)	2.475kcal/kg		
Metabolize Energy (bovine)	2.856 kcal/kg

Fish Meal

Fish contains a variety of nutrients comprise animal tissue, maintain normal metabolism, growth, reproduction is required, has improved the utilization rate of feed and promote animal growth, improve animal disease resistance ability, is in the high-grade animal feed irreplaceable quality protein sources.

The company's level of fish meal in fish as raw material, the use of modern processing technology, high quality fish after cooking, pressing, drying, crushing and other refining processes. The quality indicators have exceeded the level of fish meal requirements prescribed by the state, the product has a stable and reliable quality, freshness is good, fish powder flavor, protein content is high, easy to decompose, easy to digest, easy to absorb.

Nutrient	Fish Meal
Protein	65%min
Moisture	10%max
Fat	10.00%
Salt	3% Max
Sand	3% Max
Ash	17.00%
ADF	5.40%
MOQ	21.5MT/20'FCL
Packing	25kg PP Woven Bag
Payment terms	TT/LC
Shipment terms	FOB/CNF

Corn Gluten Meal

Corn gluten meal (CGM) is a by-product from the manufacture of corn starch and corn syrup. It is very high in protein supplement in feeds for livestock, poultry, and pets. It contains slightly more TDN than corn. The protein in corn gluten is degraded relatively slowly in the rumen.

Nutrient	Standard	Result
Crude Protein	65%min	65.55%
Crude Fat	1%min	1.70%
Crude Fibre	3.00%	2.200%
Moisture	10% max	8.22%
Crude Ash	3% Max	2.10%
Mycotoxin	30 CFU/g Max	Conforms
E.Coli	0	Conforms
Salmonella	0	Conforms
Dry Matter	90%	
Digestive Nutrients	83%

Packing	25kg PP Woven Bag
Payment terms	TT/LC
Shipment terms	FOB/CNF

Chicken Meat Meal

The raw materials of chicken meat & bone meal are 100% from by-products of chicken, whose main components are residual bone, skin, fat, offal, meat after the removal of edible part. Chicken meal is an ingredient used by many pet food manufacturers because it is cheaper, easier to produce with, and can be stored for longer. Chicken meal is made by taking the “leftovers” of chicken after meat has been removed for human use. This is cooked in a process called rendering: grinding the chicken down and cooking it at very high temperatures for several hours to make a powder or meal.

Nutrient	Chicken Meal	MOQ	20MT/20'FCL
Material	100% Chicken	Packing	25kg PP Woven Bag
Protein	68%min	Payment terms	TT/LC
Moisture	8%max	Shipment terms	FOB/CNF
Ash	17% Max		
Fat	15% Max		
Pepsin Digestive	85% Max		

Chicken Meat Meal

68% Protein

Chicken & Bone Meal

The raw materials of meat and bone meal are mainly from by-products of pigs, cattle and sheep in slaughterhouse, whose main components are residual bone, skin, fat, offal, meat after the removal of edible part. Using advanced equipment, scientifically processing, high temperature sterilization, to make the organic more easily absorbed by decomposition of long-chain to short-chain, greatly improving the palatability of animals and the absorption rate.

Nutrient	Chicken & Bone Meal
Crude Protein	65%min, 60%min
Moisture	10% max
Ash	25% max
Fat	10% Max
